

# Cash Out Refinance

## CHECKLIST

Ready to take advantage of the equity in your home? Use this list to review your options.

With competitive interest rates, now could be a good time to refinance and take advantage of your home's equity.

Before you decide to take cash out of your home, you should ask yourself the following questions:

## Determine Your Goal

- Do you want to lower your monthly payments?
- Reduce your interest rate?
- Pay off your mortgage faster?
- Convert from an adjustable rate to a fixed rate mortgage?
- Use your home equity to consolidate debt?
- Get cash for expenses, such as a new car, home improvements, or college tuition?

Once you determine your goal, the next step is to figure out if you have enough equity in your home to do it. This includes cash and closing costs that could be financed into your loan.

## If you're ready to go, here is what you will need:

### Income and Employment Details

- Pay stubs for the past few months, to show proof of income
- Proof of other income, such as social security, pension, retirement, disability, etc.
